

Clay body = white recycled. Fired oxidation Cone 6, no hold

BLUE PLATE
 Glazed both sides
 Used large triangle stilts – drew outline of stilts on plate underside and glazed up to the stilt lines. Hot glue gunned stilt points to the bottom of the plate where no glaze. Worked nicely: no little glaze points (that needed to be ground down) where the stilt points touched the glaze.
 10" dia

Amaco Cobalt Celadon, 3X in and out. NO VUG applied.

GREEN PLATE
 Glazed and stilted as above
 10" dia

Black VUG Brushed on and wiped off
 Wasabi Celadon / Mixing 1/2: 1/2 3X
